

# Globe Training Centre – (GTC)

## MS Exchange Server 2003 – Implementation & Manage (Curriculum)

This instructor–led course provides students with the knowledge and skills that are needed to update and support a reliable, secure messaging infrastructure. This infrastructure is used for creating, storing, and sharing information by using Microsoft Exchange Server 2003 in a medium–sized to large–sized (250 to 5,000 seats) messaging environment. This course offers a significant amount of hands–on practices, discussions, and assessments that assist students in becoming proficient in the skills that are needed to update and support Exchange Server 2003.

### Content:

- **MS Exchange Server 2003 and Windows Server 2003 Active Directory (AD)**
